Welcome to a world of wonder.

A world inspired by eco-friendly creations from all over the globe, yet sourced, designed and delivered by a trusted local neighbor, with products **made in the USA**. Welcome to Holiday Outdoor Decor.

At Holiday Outdoor Decor, we see a very bright future based on our three core tenets: Product, People and Planet.

PRODUCT

As the largest commercial holiday display company in the country, we can confidently offer you the best product selection available anywhere and ensure your products ship on time. More products means more joy the moment your display illuminates. Invite visitors to a world of wonder where they are transported into the show. Enjoy breathtaking displays of augmented reality with enhanced online and social media exposure.

PEOPLE

For more than 100 years, experienced design consultants with the knowledge and passion to bring your display to life have been the lifeblood of our company. The most trusted designers in the industry make us the best choice in your search for the perfect holiday decor, offering the flexibility of custom designs and financing options catered to your needs.

PLANET

We believe in protecting our world to help ensure there will be plenty of wonder and holiday celebrations to enjoy in the future. That's why we're passionately committed to using LED products, reducing our carbon footprint with 3D printing and recyclable products, and controlling our paper waste.

We truly hope your holidays are forever bright.

Eco-friendly options

RECYPRINT
500 billion bottles of plastic are produced each year. That's an ocean of plastic.
Every year, 8 million tons of waste end up in our oceans. It creates a mass of floating plastic equal to one-third the size of Europe. For us at Holiday Outdoor Decor, that's unacceptable. So, a program was developed that recycles plastic from the food industry to help create the material for our displays. This method reduces greenhouse gas emissions and eliminates countless bottles from ending up in our oceans.

BIOPRINT
How sugar cane became a biodegradable sweet spot.
Our commitment to protecting the planet begins with innovation and ends with invention. Introducing Bioprint. A fully recyclable biomaterial made from an extremely abundant organic material: sugar cane. The plant is turned into dehydrated bioethanol in our lab and arrives as granules in our workshop. These granules are dyed with natural colors, injected into our 3D printers and, in turn, produce our eco-friendly, biodegradable structures. From Earth to Earth, as they say.
